

POKHARA UNIVERSITY

Level: Bachelor Semester: Spring Year : 2021
Programme: BCA Full Marks: 100
Course: Computer Fundamental and Application Pass Marks: 45
Time : 3hrs.

Candidates are required to give their answers in their own words as far as practicable.

The figures in the margin indicate full marks.

Attempt all the questions.

1. a) What do you mean by generation of computer? Explain the various generation of computer with the advantages and disadvantages of each. 8
b) Explain the functional units of computer with diagram. What are the functions of computer? 7
2. a) What do you mean by Application software? Explain about generic and customized software with example. 7
b) What is plotter? What are the application areas of Speech Recognition devices? Explain in detail. 8
3. a) What do you mean by network topologies? Explain any three types of network topologies. 7
b) Explain the function of **Any Four** of the following command with syntax and example: 8
 - i. PATH
 - ii. SCANDISK
 - iii. TREE
 - iv. LABEL
 - v. MOVE
4. a) What is RAID? Explain the difference between SCSI and RAID. 8
b) What do you mean by power supply? Explain about different types of power supply. 7
5. a) What is backup? Explain different types of backup used in computer. Explain the PC maintenance and its types. 7
b) What do you mean by secondary storage? Explain the functional mechanism of Compact Disk. 8
6. a) Why motherboard is called mainboard of PC? Explain major parts of a motherboard. 8

- b) What do you mean by maintenance? Explain about different types of maintenance. 7
7. Write short notes on **any two**: 2×5
 - a) GUI vs TUI/CUI
 - b) System Care Factors
 - c) Booting in Computer

POKHARA UNIVERSITY

Level: Bachelor Semester: Fall Year : 2022
Programme: BCA Full Marks: 100
Course: Computer Fundamental and Application Pass Marks: 45
Time : 3hrs.

Candidates are required to give their answers in their own words as far as practicable.

The figures in the margin indicate full marks.

Attempt all the questions.

1. a) What is computer? Explain the different generations of computer with major electronic components and other related technologies. 7
- b) Draw a functional diagram of digital computer also explain the functions of each unit in details. 8
2. a) Define hardware and software. Explain different types of software used in computer in details with examples. 7
- b) What is softcopy output? Differentiate between impact and non-impact printer. 8
- a) Define network topology. Explain different types of network topologies with its advantages and disadvantages. 8
- b) Define operating system. Explain different functions of operating System in details. 7
- a) Explain the following commands with syntax and function: 7
 - i. COP CON
 - ii. CD
 - iii. TYPE
 - iv. PING
 - v. MKDIR
 - vi. CLS
 - vii. CHKDSK
- b) What do you mean by power supply? Explain different types of power supply in detail. 8
- a) Why is motherboard used to refer to the main board of a computer? Describe major components of motherboard. 8
- b) What is system BIOS in computer? Compare and contrast between primary and secondary memory. 7

6. a) What do you mean by system maintenance? Explain different types of maintenance are used in system maintenance. 7
- b) Define Backup? Explain different backup techniques used in computer system for backup purpose. 8
7. Write short notes on **any two**: 2×5
 - a) CUI vs GUI
 - b) Differentiate between RAM and ROM
 - c) System care Factor

POKHARA UNIVERSITY

Level: Bachelor
Programme: BCA

Semester: Fall

Year : 2023
Full Marks: 100
Pass Marks: 45
Time : 3 hrs.

Course: Computer Fundamental and Application (Old)

Candidates are required to give their answers in their own words as far as practicable.

The figures in the margin indicate full marks.

Attempt all the questions.

1. a) What is computer? Explain the First and Third generations of computer with major electronic components and other related technologies. 8
- b) Draw a block diagram of digital computer. Explain the functions of each unit in details. 7
2. a) What is point and draw devices? Explain different types of input accessories with example. 7
- b) Define Intranet and Extranet. Explain different types of network topologies with its advantages and disadvantages. 8
3. a) Differentiate between GUI and TUI/CUI. 7
- b) Define operating system. Explain the functions of operating system? 8
4. a) What is motherboard? Explain some of the main components of motherboard. 7
- b) Differentiate between primary and secondary storage devices with examples and their uses. 8
5. a) Define power supply. Explain the concepts of SMPS and UPS. 7
- b) Why do we need system maintenance? Explain different types of maintenance used to maintain the system. 8
6. a) What do you mean by system care? Write down the different system care factors in details. 8
- b) What do you mean by disaster recovery? Explain various types of backup methods. 7
7. Write short notes on: (Any two) 2×5
 - a) Middleware
 - b) Processor and Its types
 - c) Disk Defragmentation
